

## **DIVEPAL(S) DiverAssist**

DIVEPAL(S) DiverAssist is a program to assist our members in the following areas:

### **1. Diver Identification Services**

Imagine traveling all that way, to the dive site and not having your dive certification card. Whatever the reason, it's unlikely the dive resort operator will allow you to dive. We've seen it for ourselves, friends whose wallets were pickpocketed, and not being able to dive. Double whammy, right? So here's where we come in. When you register to be a member with us, we will request images of your dive cards, and the latest dive card certification number will be printed on your divepals membership card.

When you contact us about not having your card, we will reproduce the image of your dive card and your divepals membership card and send them both to the dive operator or resort operator. That way, the dive operator will have some documentation to verify you as a Diver. We've already gotten bouquets from our members for this useful service, so we know it's a real divesaver!

### **2. Promotions and savings on dive packages**

Because our dive resort partners and operators update us on promotions and special discounts for dive packages, you'll be the first to know of any fantastic deals. We'll assist you to reserve or book these dive packages and all you have to do is to pay direct to the dive operator. That's how we have helped our members save money. And with more money to dive, they did just that!

### **3. Dive Equipment Maintenance Programme**

Diving Equipment needs maintenance? Why not leave it with us? We'll get the experts to fix it and help you maintain a record of these changes, per our Dive Equipment Maintenance Record service, so that you'll know what parts are changed frequently or maybe even unnecessarily. Check membership details for terms and conditions with respect to this program.

### **4. Dive Refresher Course**

Haven't dived in a while? Need a dive refresher course?  
No worries, we'll find the dive operators for you. Check membership details for terms and conditions with respect to this program.
